A fraternity is a social organization that promotes professional connections and builds lifetime friendships. Each fraternity at UCI holds different morals and ideals. No two fraternities will operate the same, making it important for prospective members to get acquainted with more than just one to find the fraternity they fit with best on a personal level.

IFC & FRATERNITY LIFE AT UCI

The Interfraternity Council (IFC) at UCI oversees and helps guide the fraternities on campus. Traditionally in fall, we hold an information session to help incoming students familiarize themselves with Sorority and Fraternity Life on our campus.

Joining a fraternity can be a highly rewarding decision during college. Offering a variety of study groups, service opportunities, professional connections, and social outlets, a fraternity is a fantastic opportunity for students to not only grow in academia, but in their professional and personal lives as well.

WHAT IS RECRUITMENT?

Recruitment takes place during the first week or two of each quarter. During this time, IFC fraternities have recruitment events such as sports games, BBQ’s, and beach days.

We recommend that you check out multiple fraternities and only accept a "bid" for a chapter in which you are seriously considering membership. A bid is an offer to prospective members as a formal invitation to join a fraternity. Receiving a bid does not obligate you to join a chapter and does not make you a member of that fraternity.

FREQUENTLY ASKED QUESTIONS

How much does a fraternity cost?
Chapter dues vary between each organization, as do methods of payment and fundraising. Individual chapters can provide more details during recruitment weeks.

Do fraternities haze?
UCI, IFC, and our fraternities do NOT condone hazing. Each organization must abide by the Student Code of Conduct, where it is explicitly stated that no one shall conduct/condone hazing. If someone feels they have been hazed, they should report it to Student Life & Leadership at G308 Student Center.

Will being in a fraternity affect my academics?
Greek organizations were founded to further scholastic achievement. The UCI all fraternity GPA usually varies about 0.1 grade points from the all men’s GPA in either direction.

Recruitment parties or events involving the use of intoxicating substances are strictly prohibited and should be reported directly to the IFC Executive Board via email to ifc@uci.edu.
